— Drag or drop the file you wish to upload onto the grey arrow. You will find a progress bar on the screen. It will take some time depending on factors such as the resolution of the video and how long it is. In the meantime, you can write a description and add relevant tags for your video so that YouTube knows what search results to include it in and viewers can find it.

— YouTube will prompt you to select a thumbnail for the video.

— Repeat with any additional work samples you wish to share.
