## MAC Minigrant for Organizations

MAC Minigrants can pay for up to half of the total fee of a performance, workshop, or other presentation by a member or members of MAC's Artist Roster.

The Mississippi Artist Roster program is a listing of professional Mississippi artists who have been reviewed and approved by a panel of experts and are available for performances, workshops, and other presentations in a wide range of settings around the state.

Schools, community arts groups, libraries, and other organizations can use the Roster to identify potential artists to present at their venues.
